

Bigfoot Class Assignment – Due April 23th!

Part of the Solution

- Watch Food, Inc.

This movie is available on Netflix, iTunes, and Amazon.
It's just over an 1 hour and 30 minutes.

Trigger Warning: Please be aware that there are some dead animals and rough working conditions shown in this film. For example, the corn clip we watched in class is from this movie.

For class please prepare:

1. 5 talking points to be shared and discussed in class summarizing this film and connecting it to the N cycle.
2. between 3 and 5 points that describe how this film was effective.
3. between 3 and 5 points that describe how this film could have been more effective or where you think it failed.
4. some form of social media posting that spreads the message about the connection between nitrogen, our health, and the environment.

**Items 1 – 3 above you will turn in during class; item 4 please send this to me via email, dropbox, or google drive Wednesday by midnight.
